HAS A "HAZARDOUS WASTE" DETERMINATION BEEN COMPLETED? YES NO

IS THE MATERIAL A HAZARDOUS WASTE AS DEFINED BY the EPA (RCRA) OR BY THE DEPARTMENT OF PLANNING AND NATURAL RESOURCES? YES NO

METHOD OF DETERMINATION: MSDS TEST/ANALYTICAL RESULTS
 KNOWLEDGE OF PROCESS OTHER _____

PLEASE ENCLOSE ALL PERTINENT SUPPORTING DOCUMENTATION, INCLUDING ANY AVAILABLE TEST RESULTS OR MSDS SHEETS. IF YOU ARE USING "KNOWLEDGE OF PROCESS", PLEASE EXPLAIN IN A COVER LETTER. ADDITIONAL DOCUMENTATION MAY BE REQUIRED.

CERTIFICATION OF ACCURACY OF INFORMATION

I _____, representing _____, hereby certify under penalty of Virgin Islands or Federal Laws that to the best of my knowledge, information and belief, the above-described waste is properly classified and identified and is not a RCRA or USVI hazardous waste, and that the information set forth herein is true and complete. I further certify that I have read the instructions on this application form and understand my responsibilities. The generator of this waste has determined that the subject waste stream (as described above) IS NOT a hazardous waste by the Department of Planning and Natural Resources/Division of Environmental Protection (DPNR/DEP) or the US Environmental Protection Agency (USEPA) criteria (Ref: Title 19, Chapter 56 VIC and 40CFR Subparts B-D, Part 261). Specifically, the generator has determined that the waste is not "Flammable", "Corrosive", "Toxic", or "listed", as defined in the above-referenced regulations, and therefore assumes all liabilities if the delivered waste is later determined to be a hazardous waste as defined by the Waste Management Authority, DPNR/DEP and/or the USEPA.

INSTRUCTIONS AND DEFINITIONS

Special Waste: Any waste material from a business, commercial or industrial source which, because of its origin, physical state, chemical or other characteristics, would suggest that it may: be a hazardous waste, contain hazardous substances, or waste prohibited at landfills and in sewer systems, require additional management such as hazard review or special disposal conditions and/or precautions, carries potential liability to the Waste Management Authority; operator of the Territory's Landfills and Sewer System, or could present health hazards to the public.

Unacceptable Waste: 1) Hazardous Waste and PCB waste as defined by Federal or VI law, and waste which is a threat to the public health and the environment. 2) Waste prohibited from landfill disposal by VI or Federal law, regulation, rule, code, permit, or permit condition. 3) Waste which in the judgment of the Waste Management Authority will cause unreasonable operational problems, hazard, risks to solid waste and waste water personnel, or create unreasonable liability for the Authority. 4) Waste water that has been chemically altered, tires, motor oil, lead/acid batteries, and sealed drums and containers. **Applicant should call for a list of all currently unacceptable wastes.**

Application Instructions:

- 1) The generator of the waste is required to determine whether or not the waste is hazardous prior to filling out the application. The Virgin Islands Waste Management Authority cannot make that determination.
- 2) Fill in the application form completely. Incomplete or unsigned applications shall not be processed.
- 3) Enclose any additional documents and information such as test results, MSDS sheets, or other supporting documentation, if necessary.
- 4) Describe the waste completely in a cover letter.
- 5) Application must be signed by the person who is responsible for the accuracy of the information given.
- 6) If the application is approved, an approved permit will be faxed and/or mailed to you. You may then make a disposal appointment the day before you plan to deliver solid waste or waste water, by calling the Waste Management Authority at (340) 773-4489 or 773-1290 and ask for the Compliance and Administration Program Manager.
 - a. At the time of disposal at the Anguilla or Bovoni Landfill, you must present to the scale booth to attendant a copy of your permit before proceeding to the disposal area.
 - b. At the time of disposal into the waste management system, a specific location will be identified by the Operations and Maintenance Director.

-DO NOT WRITE BELOW THIS LINE-

WASTE MANAGEMENT AUTHORITY ACTION: Disposal of the above-described waste is:

APPROVED DISAPPROVED
